export of blended yarn against 100% Polyester Yarn.

The request of the applicant was considered by the Committee. Committee observed that the firm's representative has appeared before NC and explained their case that the firm has taken above both the licences under SION J-50. They intended to export Polyester yarn out of imported Polyester Staple Fibre. However due to technical issues they could not export.

And, therefore, the applicant approached to consider the case in the Norms Committee. The applicant represented that they had already imported Polyester Staple Fibre. However, due to change in market trend, they have been able to get order for export of polyester cotton blended yarn by using the imported polyester yarn and indigenous cotton under norms category J-68 allowing 12.7% wastage from Polyester Staple Fibre to Polyester yarn (Cotton Fibre to be sourced from domestic market). The details of import and export are given below:

S.No	Authorisation Nos.	Qty permitted for import (kgs)	Actual Qty imported (kgs)	Polyester to be exported (87.3%)	Cotton to be exported (kgs) (Indigenous)	Total Qty (kgs)	Value US\$
1.	0510406731 dt. 05.06.2018	49397.04 kgs	49397 kgs	223216.50	19617330 Kgs	419389.80 Kgs	595945.77 US Dollar
2.	0510406882 dt. 18.06.2018	220853.60 Kgs	206292 kgs				
	Total	270250.64 kgs	255689 kgs				

After detailed deliberation, Committee felt that the request of the firm is reasonable and allowed to effect of export of polyester cotton blended yarn grant the above said Adv. Authorisations as per qty in the above table allowing 12.7% wastage on Polyester fibre.

RA concerned may take necessary action subject to compliance of other usual conditions.

Manjamp.
