Decision : The Committee considered the case as per agenda and decided to issue deficiency letter to the authorization holder for submission of the following information and deferred the case:-

- Technical descriptions/specifications, percentage composition (by weight) of the products to be exported.
- Detailed manufacturing process along with technical justification for wastages claimed at each stage and each of the materials required in the manufacturing process.
- Chemical name, Technical specifications of items proposed to be imported.
- Whether the scrap generated in the process is being reused or not. If not the technical justification for its non-use may be furnished. If the scrap is being sold, the sale value/commercial value may be indicated.
- Material balance indicating calculative statement of the requirement of each of item for manufacture of each of export product
- Exact chemical name with catalogue
- Percentage solid content of import and export
