Case No. 639	M/s Dynamic Techno Medicals Pvt. Ltd., Kerala
NC44/10 dt. 28.01.2010	F.NO.1/84/162/751/AM08 -DES-V
Re-fixation of input output norms against advance authorization No. 1010027185 dated 21.08.2007.	

Decision: The Committee considered the case as per agenda alongwith other relevant papers and observed that this case was cleared by NC in its meeting held on 28.11.2007. Since, export product was in assorted sizes & shapes, NC had imposed the condition that 3177 Kgs of silicone polymer should be accounted for in the export product in this case with total export Qty. 24700 (in Pairs). But, firm have exported total 22608 Pairs of assorted products instead of 24700 Pairs, which resulted in excess import of 289 Kgs in this case. In view of this Committee felt that number of Pairs of export product in this case has not much relevance on accountability angle. Hence, Committee decided that EO should be calculated on 22608 Pairs of exported item instead of 24700 Pairs without accounting the Qty. of Silicone to be accounted for against the advance authorization in question. Accordingly, applicant firm have to account for 3177 Kgs of Silicone polymer in the export product. R.A may review this case accordingly and issue EODC.

The R.A. shall be advised to take necessary action subject to compliance of other usual conditions.
