| Advance Authorization No. and Date | 0910063626 dated 17.05.2016                                                                                                                     |
| Subject                            | <b>Request of M/s ALMELO Pvt. Limited, Hyderabad for fixation of adhoc norms against Advance Authorization No. 0910063626 dated 17.05.2016.</b> |

**Decision:** The Committee considered the request of firm in the presence of technical experts and it was observed that the export product is an intermediate for a new Drug Discovery molecule – Solithromycin, which is under clinical trial and no comparative data is available at this stage.

2. As per the details given by the firm, it was noticed that the firm has imported only two inputs and rest of the items appear to be procured indigenously. As per the data showing actual import, the Committee decided to fix following adhoc norms:

|                                       |      |         |                          |          |
|---------------------------------------|------|---------|--------------------------|----------|
| Export Product                        | Qty. | Sl. No. | Import items             | Qty.     |
| Oxo - Erythronolide A-11,12-Carbamate | 1 kg | 1.      | Erythromycin Thiocyanate | 5.00 kg  |
|                                       |      | 2.      | 1,1-Carbonyldiimidazole  | 2.052 kg |

**Note: The above norms are only for regularization and closure purpose. No repeat licence will be issued based on above.**

RA concerned may take further necessary action as per above decision of NC.

| Subject                            | <b>Request of M/s Almelo Pvt. Ltd., Hyderabad for revision / correction of norms in respect of adhoc norms fixed against Advance Authorization No. 0910060207 dated 23.05.2014 and 0910060403 dated 09.06.2014</b> |

**Decision:** The Committee considered the request of firm in the presence of technical experts and it was observed that in the past norms were fixed for some other export product. Firm has already completed export and import and now EODC is pending. Firm has given Central Excise Certificate showing export and corresponding consumption of both imported and indigenous items for 166.5 kg export in 2014.

It was also observed that Export product is an intermediate for a new Drug Discovery intermediate for new API – SOLITHROMYCIN under third stage of clinical trial. They exported this item to M/s CEMPRA, USA, who is developing the API – Solithroycin.

2. As per the details given by the firm like chemistry, actual exports and imports made, Central Excise Certificate, the Committee decided to fix following adhoc norms:

For Advance Authorization No. 0910060207 dated 23.05.2014

| Export Product                                                                                                          | Qty. | Sl. No. | Import items                        | Qty.     |
|-------------------------------------------------------------------------------------------------------------------------|------|---------|-------------------------------------|----------|
| Fluoro Erythronolide A-11,12-Carbamate                                                                                  | 1 kg | 1.      | Clarithromycin                      | 3.835 kg |
|                                                                                                                         |      | 2.      | 1,1-Carbonyldiimidazole             | 3.322 kg |
|                                                                                                                         |      | 3       | 1,8-Diazabicyclo[5.4.0] undec-7-ene | 2.618 kg |
|                                                                                                                         |      | 4       | Tri Phenyl Phosphine                | 2.00 kg  |
|                                                                                                                         |      | 5       | 4-Dimethyl Amino Pyridine           | 1.359 kg |
| Note: The above norms are only for regularization and closure purpose. No repeat licence will be issued based on above. |      |         |                                     |          |

3. As the firm has shown only one import item and all other items are procured indigenously. Accordingly, the Committee decided to fix following adhoc norms:

For Advance Authorization No. 0910060403 dated 09.06.2014

| Export Product                                                                                                                 | Qty. | Sl. No. | Import items   | Qty.     |
|--------------------------------------------------------------------------------------------------------------------------------|------|---------|----------------|----------|
| Fluoro Erythronolide A-11,12-Carbamate<br>(Fluoro Carbamate stage VI, API component)                                           | 1 kg | 1.      | Clarithromycin | 3.835 kg |
| <b>Note: The above norms are only for regularization and closure purpose. No repeat licence will be issued based on above.</b> |      |         |                |          |

RA concerned may take further necessary action as per above decision of NC.

|                                    |                                                                                                                                                                                    |

| Advance Authorization No. and Date | 0910063533 dated 21.04.2016                                                                                                                                                        |
| Subject                            | <b>Request of M/s Almelo Pvt. Ltd., Hyderabad for revision / correction of norms in respect of adhoc norms fixed against Advance Authorization No. 0910063533 dated 21.04.2016</b> |

**Decision:** The Committee considered the request of firm in the presence of technical experts and it was observed that the export product is a new drug discovery intermediate and hence no comparative data is available at this stage as the API is still in the clinical trial stage and no commercial production has staged so far.

2. RA, Hyderabad in its letter dated 18.11.2019 has also clarified that the export is basically involved in drug development and Research work and have supplied Oxo-Erythronolide A-11, 12 – Carbamate, which is used in the manufacturing of a new drug molecule – Solithromycin, which has not yet been approved for therapeutic use and still at research stage only.

3. As per the details given by the firm, it was noticed that the firm has imported only two inputs and rest of the items appear to be procured indigenously. As per the data showing actual import, the Committee decided to revise the norms as under:

|                                      |      |         |                         |         |
|--------------------------------------|------|---------|-------------------------|---------|
| Export Product                       | Qty. | Sl. No. | Import items            | Qty.    |
| Oxo- Erythronolide A-11,12-Carbamate | 1 kg | 1.      | Clarithromycin          | 3.31 kg |
|                                      |      | 2.      | 1,1-Carbonyldiimidazole | 2.73 kg |

**Note: The above norms are only for regularization and closure purpose. No repeat licence will be issued based on above.**

RA concerned may take further necessary action as per above decision of NC.

Meeting ended with thanks to Chair.
