	Decision: The representative of the firm Shri Rahul Das Gupta and Dr. Sarabindu Roy attended the Personal Hearing on 20.02.2020 and explained their case. The firm was requested to produce complete chemical names of the export items with ITC-HS code and their manufacturing details like chemical reactions, % yield etc as per Appendix 4E. 1. The Representatives of the firm furnished a list of 15 export items which are not specific chemical molecule and are generic in nature falling under the category of "Others" as per their ITC-HS codes. 2. It was also explained that a chemical product which is sold in the market passes through three stages in its development viz; Lab synthesis, Kilo Labs, Scale-up in pilot plant and Big scale manufacturing and only after step 3, it is possible to determine the chemical balance, net yield on molar basis and solvent recovery. 3. It was stated by the firm's representative that TCG Lifescience Pvt. Ltd's activity is restricted to step 1 only i.e. Lab Syntheses in small (gram) quantities which are exported and the client does further studies / research. Hence, it is not possible for them to give balanced chemical reactions, yields on molar balances, solvent recovery etc. The Committee after deliberations were of the view that the firm's activity is restricted to develop chemical synthesis on laboratory scale for R&D purpose only and hence does not fall within the ambit of para 4.07 of the FTP, which involves export of specific items under commercial production with stabilized process and yields. Accordingly, the Committee decided to reject the case in its present form.
