RLA No.: 07/24/040/00092/AM15		

Decision: In continuation to Meeting No. 10/80 dated 11.09.2019, the Committee considered the case as per the agenda and noted that the case was rejected in Meeting No. 11/80 dated 01.09.2015 due to non-submission reply of deficiency letter as raised by DHI.

Thereafter, the firm represented against the rejection and requested for a review. The case was again considered and deferred in Meeting no. 11/19 dated 06.12.2018 with following decision:

*“The Committee noted that a personal hearing was already given to the firm on 06.12.2018. In the personal hearing the firm informed the committee that it has taken various AA's for supply of 33 rail/tramway coaches. Further, firm stated that it **has taken an additional license for supplementary material** required for these very 33 rail/tramway coaches. However, it has an additional export obligation of another 33 rail/tramway coaches in this license. The Committee observed that the given submission is not tenable. The committee decided to seek a detailed report from the concerned RA regarding of all such licenses issued to the firm, admissibility and current status.”*

In response to Norm Committee's e-mail dated 23.04.2019, Addl. DGFT Bangalore informed that firm has obtained several license (Copy enclosed) which are pending for the wants of norms and also informed about a letter from ECA-II, DGFT, New Delhi seeking information regarding alleged corrupt practices followed by M/s Alstom Transport India.

In this matter, the committee noted that the firm had approach the Policy Relaxation Committee (PRC) and the matter was taken up vide Meeting No. 17/AM20 held on 27.08.2019. The PRC noted the submissions by the firm as under:

“They have stated that initially, 7 Advance Authorizations were applied for duty free import of inputs required for the manufacture and supply of 33 Metro Train sets to Chennai Metro Rail Limited being a deemed export project. ATIL sought amendment in all 7 Advance Authorizations to include residual items that were required to manufacture the 33 Train sets but the request was rejected citing technical reasons by RA. Thereupon, ATIL was compelled to apply for additional Advance Authorization No.0710105249 dated 20.06.2014 for importing residual inputs that were missed out and not covered under earlier 7 Advance Authorizations. Acquisition of Alstom India limited who was the manufacturer of key sub-assemblies also lead to inclusion of components required for manufacture of sub-assemblies in the captioned Advance Authorization. However, while applying for the said Advance Authorization (8th AA), export obligation of 33 Metro Train sets was declared inadvertently, as the system did not allow the applicant to apply for a new license unless the export obligation was declared. In fact, there is no separate EO under the Advance Authorization No.0710105249 dated 20.06.2014 as all imported inputs were used for manufacture of 33 train sets declared under previous 7 Advance licenses. The Advance Authorization No.0710105249 dated 20.06.2014 under which parts required for manufacture of 33 Metro Trains have been imported has been issued after 22 months from the date of earliest Advance Authorization in the clubbing set. Hence, request is to treat the supplies of 33 Train sets to the Metro Project supplied against Advance Authorizations as one and to discharge the EO. “

The policy relaxation committee vide PRC Meeting No. 17/AM20 dated 27.08.2019 gave the following decision in the matter:

“Decision: The Committee heard the submission made by the firm and discussed the matter at length and decided to relax the conditions as laid down in Para 4.38 (vi), (vii) and (xii) of HBP 2015-20 as amended vide Public Notice No.70/2015-20 dated 30.01.2019 for clubbing of eight Advance Authorizations No.(i)0710090351 dated 21.08.2012, (ii)0710090531 dated 31.08.2012, (iii)0710095554 dated 23.05.2013, (iv)0710096369 dated 02.07.2013, (v)0710096370 dated 02.07.2013, (vi)0710099232 dated 28.10.2013 and (vii)0710101246 dated 10.01.2014 and (viii) 0710105249 dated 20.06.2014. It is subject to verification that amendments request of the

firm made in the AAs was rejected by the RA, as claimed by the firm and all inputs imported in the 8 AAs are fully accounted for in the supplies. The other terms and conditions for clubbing shall remain same as per policy/HBP provisions. The firm shall approach RA within 30 days from the date of uploading of the minutes of meeting.”

This Committee observed that the PRC has clubbed all the eight authorizations for imports and export purposes. Export obligation of AA No. 0710105249 dt. 20.06.2014 would remain as it is even after clubbing. Therefore, the Committee was decided in Meeting No. 10/80 dated 11.09.2019 to ask from the firm to furnish following information

1. To provide detailed statement to account for the inputs in the export products against this license.
2. Relevant technical drawings and wastage details may be provided in relevant formats for examination by the technical authorities for the purpose of fixation of norms.

The Committee noted that a deficiency letter was sent to the firm on 07.10.2019. However, no reply has been received yet. Hence, the Committee decided to wait for the firm's reply.

Case is deferred.

Subject: Application of L&T MHPS Turbine Generator Ltd for ratification of norms of AA no 0310814524 dt 10-07-2017..

DES-I, DGFT may kindly refer to the above mentioned AA of L&T MHPS Turbine Generator Ltd for ratification of norms. The firm's reply of dated 08/05/18 has been examined. Based on the information submitted this Office recommends the following.

Export

226 MW Steam Turbine(Section wise)- Total export is 315 MW & the same is to be incorporated in the AA.

Import

Item no	item	Recommendations
3	CS Plate	As per SION C-1647
2,4	consumables	Value restricted to 2% of FOB value of Export
All other items upto item no 10	components	May be allowed under GN-4 with accountability. The break up of sets to numbers given in reply may be incorporated in the AA.
11	Jig of Machining for coupling holes	It is required for machining of Coupling holes & will be exported separately with the turbine. However it is not recommended as it is not allowed as per import policy.

The above issues with the approval of JS(PLK).
