The applicant's representation was referred to Consultant (TEC-3) on 15.07.2019 for examination of the case. The case was considered in M. No. 14/81 dated 16.10.2019 and noted that the Authorisation is of May, 2015 and norms were fixed in October, 2015. The applicant requested for revision of norms in 2018. Since, the EOP has already expired and the applicant would have completed the exports, there does not seem to be any logic of revising the norms given that the applicant made exports knowing fully well about the quantities allowed for imports. Moreover, it is not clear as to what thickness of epoxy/adhesive has been considered while fixing norms in SION C-1290, C-1291 and C-10292. The applicant vide letter dated 11.12.2019 stated that they had fulfilled the export obligation within the EOP. Therefore, the applicant has requested to reconsider the case for revision as per the customer's requirement i.e. applied quantity of import item No. 3-Epoxy Power 119.200 MT and import item No. 4 - Adhesive 59.600 MT should be permitted to them.
