02.01.2013.

Decision : NC considered the case as per agenda and noted the following observations made by Technical Authority, i.e, MoFPI submitted vide OM No. E-140117/2016 dated 30th March, 2019;

- i) MoFPI constituted a technical team with the representatives from NIFTEM, IIFPT and MoFPI for consideration of total 22 Advance Authorisations obtained by the firm.
- ii) Based on the report submitted by Technical Team, MoFPI has recommended IO norms under Para 4.07 of HBP of Kinder Joy chocolate from 4 different routes i.e. KJ-Cocoa Powder, KJ-Milk Chocolate, KJ- Milk Enrobatura and KJ- Tartufino.
- iii) Committee observed that Technical team has analysed that of the total wastage claimed, nearly 12.65% is due to KJ edible rejection & KJ production rejection. While arriving at IO norms, normal wastage minus the scrap value is admissible. However, no credit for any production inefficiency or mishandling/mismanagement can be given to the firm (which is also documented by SAP Software). Committee considering the above facts furnished by the Technical Authority, i.e., MoFPI decided to request them to furnish their revised recommendation for fixation of norms of the 22 AAs without taking into account the wastage of 12.65% (on account of rejection which is distinct from normal wastage in production process) of the firm.

The case stands deferred to 16.05.2019.
