RA File Number	052404000290 AM20
Licence No and Date	0510411539/19/08/2019

Norms Committee Decision:

The Committee considered the case as per agenda along with other relevant papers and noted that applicant has requested for fixation of norms as their case was rejected in NC meeting. The Committee noted that details in CAD/measurement charts are faint/not readable. Some images of garments are not clear. The applicant is using different type of fabrics having different standard shrinkage rates. In licence no. 0510410212, they have given flow chart and wastage at each stage. Such flow charts are missing in the documents attached for this application. Applicant has given CAD considering wastage at various stages of manufacturing including shrinkage. As such the correctness of the claim cannot be ascertained. Therefore, the committee decided to give final opportunity to submit proper documents to assess their application as under:

1. Legible copy of CAD mentioning export import serial no.
2. Measurement chart.
3. Stage-wise wastage and flow chart
4. Coloured image of garments mentioned each input.

The case stands deferred for re-listing.

Norms Committee Decision:			
<p>The Committee considered the case as per agenda along with other relevant papers and noted that firm has requested for review of earlier decision. The committee noted that quantities were reduced proportionately for very low efficiency. A query was raised on this account but the applicant did not bother to reply. For export product 4 and 5 , the applicant had requested for 2.25 and 1.46 Mtr. but in both products measurement chart specific measurement was same in both hence lowest one i.e. 1.46 Mtr. per Pc was allowed with further reduction on account of low efficiency. Exporters are supposed to achieve at least 75% efficiency and in their case efficiency were much lower than it and hence the quantity of input was reduced. In view of above, committee decide to ask the firm to furnish the following:</p> <ol style="list-style-type: none"> 1. CAD of best efficiency for export item 4and 5. 2. Measurement chart for both the export item. <p>The case stands deferred for re-listing.</p>

Norms Committee Decision:	

The Committee considered the case as per agenda along with other relevant paper and noted there are 5 export items and 67 import items. The firm has provided four CADs without labelling the export item no. So, it is not possible to co-relate with the export item. Therefore, committee decided to ask the firm to furnish export item wise CAD by clearly marking Export SI no. on the CAD.

The case stands deferred.
