DGFT(DES-1) may kindly refer to their e-mail dated 17th August 2020 seeking justification for revision of ratified ad-hoc norms. In this connection, the undersigned is directed to say that

- Initially norms were recommended by this office to allow import of two items (Microbraz LM-20) as 0.5% of FOB value of the export items.
- As applicant was not satisfied with the norms, they represented for the revision of norms and Norms Committee called them for Personal Hearing.
- In PH, firm's representatives brought the components in which the import item, Microbraz LM-20, a brazing filler metal was used by them. On verification of the samples, Norms Committee was satisfied that the consumption of item is higher in this case and to assess the actual content of the item in the export items, NC advised them to submit the following information, duly certified by a Chartered Engineer :

- Net weight of the child parts.
- Net weight of the complete assembly.

- On receipt of above details, substantiating the net content of Microbraz LM-20 in the export items, the revision in norms was ~~was~~ recommended by this office

Norms Committee may now take a view in matter .
