Reference: DGFT ID Note No. 01/81/50/AM16/DES-II/95 Dated 17.08.2015.

Reference above application it is observed that firm has proposed to import mainly components and 1.2 mm coil wire required for the manufacture of portable generator set. The firm has not claimed any wastage on Coil Wire. Taking cue from existing SION C-1949, the proposal may be recommended as under:

Export Product: Portable Generator Set, Model- EU7000is

Import Inputs:

- Import item at sl. No. 123 & 248 (1.2 mm Coil Wire) may be allowed @ 1 kg./kg content in the export product.
- Rest of the import items are components may be allowed on net to net basis as per GN-4 for engineering products.

O/o DGFT may refer to firm's reply forwarded under above reference. Reply of the firm has been examined and it is observed that they have not given any justification for wastage claimed and the input quantity requirement for **"Porcelain Insulator Assorted"**. From the manufacturing flowchart now provided by the firm it appears that Porcelain Insulators are assembled with metal parts for the manufacture of bushing assembly of Transformer. In view of this and based on available information the proposal may be recommended on content basis as under:

Export Product: Transformer Bushing Assembly.

Import Inputs: Porcelain Insulators Assorted- Net to net basis i.e. 1kg./kg content in the export product.

Dear Sir / Madam,

We are in receipt of your communication requesting us to forward information / details for the Import / Export with regards items specified by tick marking in the annexed message.

In this context, we would like to bring to your kind information the following:

We have received a Firm Export Order from M/s Woh Hup International Pte Ltd, Singapore for meeting their Fabricated Steel Work Requirement for their Shangri La Hotel Construction Project at Sri Lanka.

We are provided with the Basic Engineering Drawings along with our Export Order and we need to do the Detailed manufacturing drawings and get the approval from the Clients Consultants and arrange for the procurement / manufacture and Export to Sri Lanka

We are in the process to prepare the Fabrication drawings and the same have been submitted to our Customer / to the appointed consultants and we await for their approval to process the manufacture meeting the approved Drawing requirement.

Based on the provided Basic Engineering drawings we have estimated the specified Steel Input material requirement and taking action for the procurement of the required inputs by Import and from indigenous suppliers wherever we could use indigenous Inputs.

We are requested to furnish datas under the specified Serial Nos relating to

3. Details for the Export Product
4. Weight of each Export product
5. Weight of Import / Indigenous Input for each of the Export Product
6. Raw Material work Sheet

As it is a total Steel Truss work supply in Knocked down Condition Order for their further site Installation contract work, We can provide the requested Datas in the course of export as we can provide the Datas only after freezing the drawings and execute the Export and provide as built drawing for all the export items.

In the above circumstances we are not in a position to furnish the requested datas at this stage.

We are planning to complete the Export order before the end of March 2016 subject to getting the drawing approval, etc.,
