------------------------	------------------------	------------	-----------------

Decision : The Committee noted that the firm has requested for the review of their case vide their letter No. BOTIL /5336/0510380277/CS dated 17.09.2014. In this regard, they have referred the Tax Research Unit(TRU), Deptt. Of Revenue, Ministry of Finance, O.M. No. 354/148/2013-TRU dated 28.02.2014. They have stated that their range of products neither includes the manufacture of casing Pipes or the Tubing referred to by TRU in its referred communications, nor they are supplying these commodities to ONGC Ltd., / Oil India Ltd., under the said scheme. They have further informed that their range of products are Down Hole Drilling Completion and production Tools and equipment, which are fully manufactured within the country based on essentially required imported raw materials and components. Therefore, they have imported small quantity of the Seamless casing Pipes under Advance Authorization at zero duty was one of the essential raw material used in the manufacture of components of their products and was fully consumed in to their products and was not meant to be supply to ONGC / Oil India as casing pipe or Tube. On scrutinizing the documents / PAC certificate issued by M/s. Oil India Ltd., Dibrugarh, Assam submitted by the firm, the committee noticed that the M/s. Oil India Ltd., Dibrugarh, Assam is certifying that supply of goods required in connection with Petroleum Operations under taken under Petroleum Exploration Licences or Mining Leases under International Competitive Bidding. The firm has already been informed that "Under Notification No. 12/2012-Customs, dated 17.3.2012 (Sl. No. 356 of the Table) goods specified in the list 13 and imported in connection with petroleum operations are exempt from BCD and CVD subject to fulfilment of the condition No. 41 of the said notification. Condition No. 41 has several provisions, one of them being production of an essentiality certificate from DG, Hydrocarbons. In view of this, goods supplied by Seamless Pipes & Tube Industry against ICB to ONGC & OIL shall be eligible for excise duty exemption provided such goods find mention in List 13 of the notification No. 12/2012-Customs & the condition No. 41 of the Customs notification are fulfilled. Thus, in order to avail of central excise exemption vide Sl. No. 336 of the notification No. 12/2012-CE, dated 17.3.2012, the domestic supplier of seamless tubes and pipes shall be required to fulfil condition No. 41 which include production of a certificate from a duly authorised officer of the Directorate General of Hydro Carbons in the Ministry of Petroleum and Natural Gas, Government of India, to the effect that the said are required for petroleum operations". In view of the aforesaid, the committee decided to reiterate its decision taken in meeting No.06/15 held on 10.06.2014 and decided to remind the firm for forwarding the aforesaid certificate issued from the Directorate General of Hydro Carbons by granting time for the submission of aforesaid certificate. Case is deferred to 25.11.2014.

"The norms for the above stated AA have already been fixed by the Norms Committee. M/s Nicomet vide their email dtd 08.10.14 have stated that they have not been able to export Cobalt Metal due to the fact that there has been a continuous sharp decline in the demand of this product in the international market. However, they have been contacted by some firms who are willing to take Cobalt Sulphate/Cobalt Carbonate/Cobalt Nitrate. M/s Nicomet has requested to change the export product from Cobalt Metal to Cobalt Sulphate/Cobalt Carbonate/Cobalt Nitrate.

Earlier also, a similar change was made for authorization no 0310432639 dtd 14.06.07.

The authorization may be amended as follows:-

Cobalt Metal in Export item may be amended as Cobalt Nitrate/ Cobalt Sulphate/ Cobalt Carbonate with Cobalt content 100 MT."

2. Accordingly, the Committee decided to amend description of export product as per the comments given by MSME vide its UO Note No. 30(111)/2011-ME dated 13.10.2014 for the purpose of Exports only with the stipulation that no further import is allowed.

Subject: Advance Authorization Application from M/s. Powerwind Ltd. for the import of raw material against the export of Rotor Blades for wind Turbine. (Advance Authorization No. 0510375759 dated 09.01.2014).

I am directed to refer to your advance authorisation applications received from O/o DGFT on above mentioned subject. You are being advised to submit the following information.

1. Technical specification, Make, model number, length and weight **per no.** of FRP Rotor Blades for wind Turbine to be exported. Copy of export order may also be furnished.
2. The separate weight of each of the constituent i.e. FRP Parts, metallic parts, components (metallic/non metallic) and other constituents may also be indicated in the weight of 1 number of Rotor Blades for wind Turbine to be exported.
3. Raw material asked for import are in brand trade names and the quantity indicated is either in kg or sq. meters. Specific chemical/technical name alongwith quantity in weight may be furnished for each of the raw materials.
4. As per the provisions of Duty Exemption Scheme, there should be nexus and accountability between the item of export and import, detailed manufacturing process alongwith complete material balance, quantity required (net content + wastage, if any) vis-a-vis content-contribution to the export product on weight to weight basis along with detailed technical justification may be furnished. Separate details of indigenous raw materials may also be furnished, which are to be incorporated in the manufacture of export product.
5. Group wise summary of various items i.e. glassfiber fabric/rovings, Balsa wood, PVC Foam Sheet, epoxy resin, hardeners/chemicals, foam material, components/parts, consumables and other items required for one number of FRP Rotor Blade. The different items may be separately grouped along with their basis of their applied quantities. Technical justification for wastages on net content basis etc.
6. Quantity of imported raw materials required for manufacture and export of one no. of Parts Rotor Blades for wind Turbine may also be indicated separately.
7. Details of production of export product under reference and corresponding consumption of all the raw-materials (both imported and indigenous) in the year 2012-13, 2013-14 for the export product under reference. If the production has not been started in the past, the details from commencement of production duly certified by CA may be furnished.
8. Guaranteed norms of consumption of raw material for one no. of Rotor Blades for wind Turbine from the technology supplier/foreign collaborator if any.
9. Any other relevant information.

Subject: Adv. Authorization of Input output norms under para 4.7 against advance authorization no 0210199203 dated 23.01.14 in respect of M/s Hitaishi KK Manufacturing Company pvt ltd

DGFT has forwarded application vide ID note no 01/80/50/23/AM15/DES-I/144 dated 25.04.2014 for advance authorization of input output norms in respect of export product.

After going through the application, it is felt further to ask certain information from the unit through DGFT. We may write DGFT to ask following information from the unit:-

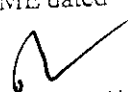

- Detailed technical drawing with dimension of each export product, catalogue, if any may also be furnished.
- Weight and number of each type of export product. Also details of items of export to be submitted.
- Weight of each of the imported and indigenous input, separately for each product, for the purpose of material balancing. Net weight (Gross weight minus wastage) for each imported and indigenous input in the export product may be indicated. Net weight along with details of other imported input to be used in the resultant product and sought to be imported/procured from sources other than the license, if any, may also be indicated.
- Size and specification including grade, composition, range, thickness etc of the items proposed for import.
- Detailed calculation as to how the quantity of raw material proposed for import has been arrived at, including the net weight of components to be manufactured out of these imported materials, wastages claimed at each stage of manufacturing with complete justification and supported by documentary evidence/drawing. Rejection due to inspection is not to be accounted for.
- Wastage calculation for different export items to be submitted seperately.

The applications and clarifications including test reports have been examined for 4 items (S.No.2-5) and it is observed that unit has claimed 6% wastage for Ammonium Metatungstate and 4% for Titanium Dioxide, which is on higher side. We have calculated the quantity considering 2% wastage for both the chemicals. Chemicals indicated at S.No. 4 & 5 Ludox AS40 and Vanadyl Oxalate Solution are the consumables which are allowed up to 5% of FOB Value of export as per General Notes for all export product groups, cl.8 sub cl.3 (F/A).

The recommendations are as follows;

- Detailed technical drawing with dimension of each export product, catalogue, if any may also be furnished.
- Weight of each export product.
- Weight of each of the imported and indigenous input, separately for each product, for the purpose of material balancing. Net weight (Gross weight minus wastage) for each imported and indigenous input in the export product may be indicated. Net weight along with details of other imported input to be used in the resultant product and sought to be imported/procured from sources other than the license, if any, may also be indicated.
- Size and specification including grade, composition, range, thickness etc of the items proposed for import.
- Blank size of import product.
- Detailed calculation as to how the quantity of raw material proposed for import has been arrived at, including the net weight of components to be manufactured out of these imported materials, wastages claimed at each stage of manufacturing with complete justification and supported by documentary evidence/drawing.

This issues with the approval of Director (ME) for taking view by NC.

24-14-16-142

Subject: Application of M/s Hari Machines Ltd for ratification of norms of AA
no 2310003202 dt 10-07-12

DES-I, DGFT may kindly refer to the above mentioned licence of M/s Hari Machines Ltd. The firm has replied vide their letter of dated 11-08-14 & e mail of dated 18-08-14. The comprehensive observations on above replies are as follows.

1. The firm has mentioned that the weight of pallet Grate was amended in their letter of dated 23-02-13. The copy stated to be enclosed now, is not available in the enclosure. The same was also not forwarded to this Office as per the records of the file.
2. The firm has never mentioned in any of the reply that there is machining in the fabricated Pallet Grate. Even now, it has not mentioned the specific areas where machining was done so that wastage is in the range of 8.7% which is quite high. There is no comments about the argument given by the firm that they have mentioned the same in the PH.
3. It may be mentioned that the firm had not submitted the required drawing in their reply of 23-12-13. They have also not submitted now. The schematic drawings submitted were with out any dimensions. The same had not been correlated with the export product.
4. Again it may be mentioned that the firm has not claimed any wastage on steel plates during their application.. Subsequently they changed it to 15% in their reply dated 16-01-13 which was again changed to 3% in their reply of dated 14-08-13..
5. The firm has mentioned at column 1(b) of Appendix 11 A of application that there is no indigenous input. . But in their reply of 16-01-13, they have mentioned that Export product-3 is made out of indigenous input. So there is conflict in the information.
6. The firm has argued that as per para 4.28 of HBP, they are eligible of getting AA. In this regard it may be mentioned that DHI has only pointed out in the letter of 22-02-14 (4 I) that the request is not commercially viable. Matters relating to value addition are to be looked in to by DGFT & DHI has no role on the same.

The above issues with the approval of IA(KKT).
