Fixation of SION for Tubular Bags	

Decision: The Committee considered the case as per agenda alongwith other relevant papers and observed that CAPEXIL has forwarded the application for fixation of SION for Tubular Bags. It was also observed that M/s Ke-technical Textiles, Kolkata have also raised the issue that although TC, Mumbai had recommended a total 10% wastage in this case, NC decided by allowing 8% wastage only. In view of this, Committee felt that the views/comments of TC, Mumbai, a technical authority, is recommendatory in nature. The Norms Committee is composed of other various technical authorities of various Ministries/Depts. The comments given by the various

technical authorities are recommendatory & are not binding on the NC. NC decide the case taking into account the recommendations of technical authorities, the particulars of a specific case and then arrives at a final decision. With respect to fixation of SIONs for this product, Committee perused the stage-wise wastage involved in the entire process for manufacture of this export product and after detailed deliberations in consultation with representatives of technical authorities present in the meeting felt that a total 6% wastage is adequate. It was also observed that M/s Ke-technical Textiles, Kolkata is only applicant for fixation of SION in this case, whereas for fixation of SION, at least 3-4 firms' industry data is required. In view of this Committee decided that TEXPROCIL may be asked for their views/comments with regard to industry data of 3-4 firms' in the prescribed relevant application form. However, if applicant firm is sole manufacturer of this product, the same may be confirmed by TEXPROCIL. It was decided to defer the case for re-listing on 29.10.2009.
